

IN Compass Health, Inc. develops and manages hospitalist programs for physician communities and hospitals. We are one of the largest hospitalist providers in the nation. Founded in 2000, we have implemented countless programs in a variety of geographical locations and facility sizes; serving over 1,000 satisfied patients each day while delivering quality patient care.

Hospitalist Programs are rapidly gaining prominence in leading hospitals throughout the United States; and it's not a passing phenomenon. A well-managed Hospitalist Program can improve the efficiency and quality of inpatient care as well as improve patient and physician satisfaction. At IN Compass Health, we are making that happen each and every day.

*The difference between us and them:*

- ◆ *Patient care first; business second.*
- ◆ *We are clinically operated as our CEO; Robert Holloway MD, FACP, SFHM, continues to be an active Hospitalist*
- ◆ *We customize Hospitalist Programs that utilize optimal quality while ensuring complete patient & hospital satisfaction.*
